Summary

- Echo is a very friendly dog and does not have any problem getting along with people. He has been living with foster family from 4th August, 2023. He comes across a lot of new faces and has no problems. He is quite calm, obedient, and quiet. He listens to instructions like sit and no, and stares when he is being mischievous. He sometimes likes to invite you to play and keeps running around. Since we live in a villa, he goes in and out at his own will. He is toilet trained. He likes going out for evening walks and waits for them. Echo enjoys going out in the car, and we take him quite often. He enjoys going to the beach and is quite popular among people during his walks. People often take pictures with him. He eats Pedigree and Smart Heart chicken and beef flavor kibble. We have not seen him harm any cats so far.
